Supposed Murderers Arrested.

ALBANY, Thursday, July 6.

A peddler of books and newspapers was arrested in Troy to-day, charged with murdering Noah Saito and wife near Petersberg, Rensselaer Co., on Saturday last. Andrew Hall was also arrested at West Troy, and committed this morning, on charge of the murder. This man Hall was recent engaged as a day laborer at Petersberg, where he was on Saturday. No money was found on him. The other man is a brother-in-law of Hall.

XXII. CONGRESS.....First Session.

SATURDAY.—WASHINGTON, Thursday, July 7. Mr. DIX, Chairman of the Committee on Commerce, reported the bill from the House in favor of suspending the collection of the tariff, without amendment. The bill was then read a third time and passed.

The Senate then took up the joint resolution from the House in favor of presenting certain laws pieces capitated at the Senate of the British, to the British, and the Senate voted it passed.

The Senate then took up a joint resolution from the House in favor of changing a light house on Lake Superior, which was passed.

Mr. DIX, then submitted a resolution in favor of setting aside Fridays and Saturdays of each week during the remainder of the session for the consideration of private bills, which was laid over.

The Senate laid aside the incoming business and proceeded to consider the joint resolution of the day.

Mr. MAXON of Va. took the floor and addressed the Senate at length against the bill. He denied the right of Congress to prohibit slavery in the Territories of the United States.

When he had concluded, Mr. JOHNSON of Ga. rose to speak, but gave way to a motion in favor of postponing the further consideration of the subject for to day. It will be entitled to the floor to-morrow on this question.

Mr. ATHERTON of the Committee on Finance moved to lay up the Naval Appropriation bill, which was agreed to.

Mr. ATHERTON then offered an amendment to the bill in favor of striking out the appropriation for Marine Hospitals, and substituting an amount to be appropriated to the Library, with accompanying explanatory documents, and with his congratulations to the country on obtaining indemnity for the past and security for the future.

The message and documents were ordered to be printed, and, in addition to the usual number of copies, 100 additional copies were ordered for the use of the Senate. The Senate then adjourned.

HOUSE OF REPRESENTATIVES.

Mr. W. B. FREESTON of Va. from the Joint Committee on the Library, reported a bill in favor of purchasing the Hammonia paper, with accompanying explanatory documents, and with his congratulations to the country on obtaining indemnity for the past and security for the future.

The message and documents were ordered to be printed, and, in addition to the usual number of copies, 100 additional copies were ordered for the use of the Senate. The Senate then adjourned.

GENERAL NOTICES.

A message was received from the President in writing by the hands of his private secretary, enclosing a copy of the letter of transmittal, with accompanying explanatory documents, and with his congratulations to the country on obtaining indemnity for the past and security for the future.

KILLERS AMONG THE CHEROKEE.—Killing among the Cherokee appears to be progressing. Almost every day brings us news of some person being shot down or killed in some other way. We now learn that the killing has not stopped since the last day, and that Wash Star was arrested at his home taken shot fifteen or twenty miles to near the place where they had killed Ells, and there shot down, and left. A few days after, we learned that a party killed James McElroy, a white man, and his son, a boy of seven years old, in the Cherokee nation. John Rider was waylaid and shot in the shoulder, but succeeded in making his escape, and is now under the house of Mr. James Mackay on the Illinois river.

Last week a party of Indians crossed the river and went to the place in pursuit of the outlaws, as they are termed. They returned a day or two since, and informed the gentleman who keeps the fort, that they had overtaken the bandits and Crees, Star, or the head of the party, had shot down and killed the two men who had been shot. But he made his escape as far as he could, and was never seen again.

Arived at Black Rock, (of Boston) Besse, R. de Jansen, 47, who had been shot in the leg, and was lame, and his son, a boy of twelve, was shot and killed. He was without redress, and his party were in imminent danger of being "blown up." A new item in politics will be called for, if this state of things continues.

The Board of Alderman offered a reward of three thousand dollars to a detective to find the man believed to be set for the protection of the building. It may be said, as misapprehension exists, that Mr. Mann is as much a sworn officer as the Mayor, and as bound to discharge the duties of his appointment.

OUTRAGE UPON MR. MANN'S HOUSE.—On

Monday night, between 12 and 1 o'clock, as he was about retiring to bed, heard what he imagined to be a small gun fire, and made to take place in the air, the air of a tremendous explosion, equal to the noise of a six pounder, immediately followed, which was distinctly heard in all parts of the city. Hearing his sister exclaim that they were blown up, he hurried down to the front door, where he ascertained that it was a repetition of the first outrage, but was unable to ascertain the cause.

The building had been made many panes of glass broken, and a portion of the iron-shant canister containing the powder, and which was firmly riveted, was forced into the opposite house, where it still remains. A man's hand was cut off in the neck by the flying glass, but not dangerous.

The shop of Mr. Taylor—who met with a loss from the former outrage—was again much injured, and although partly repaired, he was without redress, and his party were in imminent danger of being "blown up."

This new item in politics will be called for, if this state of things continues.

THE CROPS.—The crops of wheat and hay are mostly gathered, both of which are finer than usual.

The little that remains out of either will generally be harvested before the expiration of the month of July.

It has nearly attained its growth, and will probably be ready for harvesting in two or three weeks. Taking it altogether, the present season so far has been one of great abundance.

The crop of cotton is fair.
